### CONTROLS

### C64/128

Once the game has loaded, press fire to start the game. Initially you will be dropped at a neutral platform, your position is indicated on the map at the bottom of the screen. Before engaging the enemy, you must first make your way to the station indicated by the flashing circle, this is achieved by boarding one of the many trains which pull into your platform and moving the joystick to correspond with the direction you wish to travel, ie. up: Northbound, left: Westbound etc... Once you reach your destination you must wipe out all the gang members terrorising that particular station, once all the gang members have been dispatched another trouble spot on the map will flash.

### CONTROLS

Use a Joystick in port 2
