NO MORE "TZORIS":

Greetings to all spectra-warriors...

The time we have all been waiting for has come!

Thanks to all our brave warriors, the invasion of the planet Spectra is over!

The remains of the "MORPULS" invading force have fled back to the planet "TZORIS".

Now is our chance avenge our honor.

THE SPECTRON

Our secret weapon!

Each vessel has been equipped with a new

"SPECTRON". The power of this weapon lies in the ability to create a holographic dual laser blaster.

Once deployed, the enemy is caught in a cross fire.

WARNING!

The Spectron, although effective, has not been perfected and can overheat!!!

LASER BLAST

THE "MORPULS"

As you know, the evil morpuls are "MECHANOID" creatures. They can survive in a vacuum environment.

Once in battle, they are programmed to be self-propelled.

The 'morpuls' travel in long range transports. Each vehicle can carry hundreds of morpuls.

MOTHER SHIP

There are 4 types of morpuls, they are listed in order of lethal rank:

1. GUPOIDS

2. FLASHERS

3. PARASOIDS

4. NASTROIDS

As you enter the battle, the morpuls will attack in waves, sending the gupoids first.

The nastroids are the morpul elite and will attack without mercy!

The time to attack is now!

Destroy the morpuls! Avenge Spectra!

THE "SPECTRON" MANEUVER

ATTACK CONSOLE VIEWFINDER

Use your spectron controller (Joystick) to control base laser.

The spectron can be set 2 different ways (see page 5 "Game Selector")

1. Diagonal — The outer laser moves in the opposite direction of the base laser
2. Parallel — The outer laser moves parallel to the base laser.

You must align the enemy between the two lasers for a hit!

LASER FUEL

Your ship is equipped with 4 spectrons. Each spectron has limited energy and must be refueled. Energy level indicator is provided on your viewfinder.

Energy packs will be sent via shuttle from the planet spectra from time to time. In order to refuel you must fire a laser blast at either the base or outer laser energy pack. You lose a spectron if you run out of energy!!

ENERGY PACK

LASER TEMPERATURE

Each time you fire your laser, the temperature of the laser rises. When the laser is idle, it cools down. Watch your temperature level indicator!

If the laser overheats you cannot fire until it cools down.

BATTLE TACTICS

The morpuls will arrive in their transports, and begin to attack immediately.

The transport ships cannot be destroyed, so do not waste your fuel. Each morpul fighter ship holds 2 morpul warriors. When the morpul ship is hit, the two morpuls will abandon their craft and attack themselves.

The morpuls will attack both your base laser as well as your outer laser.

When the morpuls are hit, some of them may discharge a missile, and explode upon contact with the spectron.

If either laser is hit, you lose one spectron

MORPUL WARRIOR VESSEL

MORPUL DESTROYING LASER

The morpuls will attack in waves, in order of rank. After you have completely wiped out the first rank of morpuls, the next, more troublesome type will attack. A bonus spectron is awarded every 10,000 points. A maximum of 4 spectrons can be carried at any one time.

THE MEDAL OF KLIG

All brave warriors will receive the honors of the galaxy.

The coveted MEDAL OF "KLIG" will be awarded to those who excell.
