2. Screen # 2 — SHERWOOD FOREST AMBUSH

ROBIN starts off the game at the edge of Sherwood Forest where the Sheriff's henchmen lie in ambush. ROBIN must shoot, with his bow and arrows, fifteen (15) of the henchmen before he can move off to the right over the bridge and into the next screen.

3. Screen # 3 — SWORD FIGHT ON THE MEADOW

Once ROBIN crosses the bridge, he must face a whole platoon of henchmen. He must defeat them all as fast as possible, using only his sword, before moving off to the right side of the screen. ROBIN will have unlimited lives in this scene only — so time is of the essence.

4. Screen #4 — NOTTINGHAM CASTLE ENTRANCE

When ROBIN has shot five (5) of the tower guards on the castle rampart a secret target will appear next to the drawbridge and Robin must shoot the target to lower it and allow him into the castle. Outside guards patrol the entrance and must be avoided or shot, but only the tower guards count to make the target appear.

5. Screen # 5 — SEARCH THE CASTLE

When ROBIN is inside the castle, he must search and locate both Maid Marian and the Sheriff's Gold. ROBIN is no longer armed so speed is important as he opens the doors searching for treasures. ROBIN will be rated on how fast he was able to journey from Sherwood Forest into the Sheriff's castle and find both the Gold and Maid Marian.

PLAY ACTION — Screen 1 PLAYER # and SKILL SELECT

During this screen, the player(s) may choose their skill levels and/or the number of players who are going to play (see skill levels). When the two player game is selected, the play action will alternate between player #1 and player #2

PLAY ACTION — Screen 2 SHERWOOD FOREST AMBUSH

You, ROBIN HOOD, are on your way from your hide-out deep in Sherwood Forest to the Sheriff of Nottingham's castle in order to save MAID MARIAN and return the Sheriff's GOLD to the peasant farmers.

As you reach the edge of the forest, you are attacked by the Sheriff's henchmen. They will shoot their arrows or sneak up and stab ROBIN. Stay away from the trees where they are hiding. There are fifteen of them and all must be eliminated before you can travel on over the bridge on the right of the screen. ROBIN can shoot his bow in eight directions by using your joystick and fire button.

Sometimes it is better to run than to stand and fire from one spot. Remember ROBIN can't swim.

PLAY ACTION — Screen 3 SWORD FIGHT ON THE MEADOW

Once ROBIN crosses the bridge, he will see a whole platoon of the Sheriff's swordsmen. He must defeat all of these henchmen before he can proceed.

To swing ROBIN'S sword, press the fire button on the side of your keypad. Combine the swing with an upward push on the joystick for a high swing. Right or left on the joystick and the fire button for a lunge and down and fire for a low swing. Use your moves to counter the henchmen's attacks.

You will have unlimited lives, so this is a place where speed really counts. Try to be on the same line as your opponents to be most effective. Once you have eliminated all of the swordsmen, you may move off to the right to the Castle Entrance.

PLAY ACTION — Screen 4 NOTTINGHAM CASTLE ENTRANCE

When ROBIN reaches the Castle, he finds it guarded by armed henchmen on the rampart towers and patrolling the outside entrance. He must shoot with his bow and arrows five (5) of the tower guards. He must avoid or shoot the outside guards. When he has shot the five henchmen, a secret target will appear next to the drawbridge.

Shoot it and the drawbridge will open. Be careful of the water, for ROBIN can't swim. When the drawbridge is down, ROBIN can enter the castle and begin his search for MAID MARIAN and the Sheriff's GOLD.

PLAY ACTION — Screen 5 SEARCH THE CASTLE

ROBIN will appear at the basement floor of the castle. Behind one of the doors is the Sheriff's GOLD and behind another is MAID MARIAN (press fire button to open). All the rest have henchmen behind them. ROBIN must find the GOLD and MAID MARIAN (a special tone will be heard when this happens). Never stand and wait in front of a door after you have opened it, for a henchman could come out and stab you.

There are some special tricks for running away and avoiding the henchmen since ROBIN no longer is armed with bow or sword...but it is part of the game for you to find the special strategies for success in the last screen. Once you have found both MAID MARIAN and the GOLD, you will be rated according to the speed and skill level at which you played the game.
