Altered Beast

Zeus has called upon you! Only a brave and fearless warrior can save his beloved daughter, Athena, from the cunning clutches of Neff, evil Lord of the Underworld.

Summoned from the grave, you are bestowed with supernatural powers. Collect 'mystical' spirit balls and transform into an awesome array of creatures with formidable forces. As the Strongman, Werewolf, Weretiger and Weredragon, rip the flesh of devilish demons. As Werebear, knock out your enemies with one bad breath!

You hear the distant cries of the beautiful Athena and, as the terrors of the Underworld tighten their grasp, the beast within you rises to face the final battle.

With five complete rounds, the onslaught of Neff's underlings is staggering. But Neff promises to be the most loathsome enemy yet, so prepare yourself for the worst. And remember, Zeus didn't bring you back from the grave to fail!

Mastering The Game

HINTS AND TIPS

To transform into an Altered Beast, defeat the three-headed wolves and capture the spirit balls they release. You must capture three spirit balls before you can turn into an Altered Beast.

Wolves release only one ball per defeat. If the game is played with two players, two spirit balls will be released from the wolves (ST/Amiga/IBM versions only).

Power Up

Set up your computer as shown in the owner's manual.

Altered Beast is a multi-load game. To enjoy continuous play, you MUST keep your Altered Beast disk in the disk drive at all times during the game.

COMMODORE 64 & 128 (Joystick control only)

1) Plug your joystick into Port #2 for Player 1 and Port #1 for Player 2. Turn on your disk drive, your computer and your monitor.
2) Insert your **Altered Beast** disk into the drive. Type **LOAD"*", 8, 1** and press **RETURN**.
3) After the game loads, press F1 for 1 player or F7 for 2 players. On the C64, a second player may start playing at anytime during the game (even if F1 was chosen) by pressing the fire button on the Port 1 joystick.
4) Pause - Press the **SHIFT/LOCK** key. Press again to continue. Restart - Press the **RUN/STOP** key.

ATARI ST (Joystick control only)
