CABAL

THE CABAL SAGA

You are the top rated anti-revolutionary in the world. You are called upon to rid a Central American country of a powerful terrorist army. The fighting will be fast paced and furious as you take the war through the steaming jungles, the gnarled foothills, and the hidden outposts. There will be barely enough cover for you as you take on the toughest mercenaries and cutthroats from this part of the world.

Armed with only a machine gun and grenades, you must face the worst that they have to offer. Do battle with tanks, helicopters, half tracks and a countless score of enemies. You must use all of your fighting skills to avoid their attacks while trying to destroy their strongholds. Capture their weaponry to use against them in the hardest challenge you'll ever face as the world's greatest anti-terrorist.

LOADING THE GAME

• At A> type CABAL and press ENTER.
