SAFETY INFORMATION

ABOUT PHOTOSENSITIVE SEIZURES

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these photosensitive epileptic seizures while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms - children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by sitting farther from the television screen, using a smaller television screen, playing in a well-lit room, and not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Other Important Health and Safety Information. The Xbox® Instruction Manual contains important health and safety information that you should read and understand before using this software.

AVOID DAMAGE TO YOUR TELEVISION

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may burn in to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played safely on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played safely on your set.

Unauthorised copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

i SAN ANDREAS

is one of the country's most diverse visitor destinations, known for its huge size and incredible variety. Although justly celebrated for its 3 wildly different main cities each with its own style and attractions to offer - Los Santos with its celebrities and sprawling ghettos, San Fierro with its eclectic artist community, and Las Venturas with the glitz and glamour of casinos - it has so much more beyond that; such as mountains, ghost towns, dense forests and hot, dry deserts. Take time to visit the whole state and support local businesses.

AIRPORTS

Need to put some distance between you and your associates? The fastest way out of town is by plane from your nearest airport. There are 3 airports in the San Andreas area, don't expect them to take air miles.

LOS SANTOS AIRPORT

LSX is now the fourth busiest airport in the world. The airport is made up of five gates that are connected by a U-shaped two-level main terminal.

SAN FIERRO AIRPORT

This airport is bordered by the San Fierro Bay and provides a spectacular aerial view of the Gant Bridge as you take off.

LAS VENTURAS AIRPORT

Literally minutes away from the Las Venturas strip, you won't have to wait long to try your hand at the tables.

MONEY

San Andreas is the epitome of consumer society; there's always something new to buy, spending money feels good, you need to spend money to look good, and having the latest gear can be pretty important to those around you. Just remember though money isn't everything and some things like respect, can only be earned, not bought. The following credit cards are well reputed throughout the state but generally most people prefer cash.
