### About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by:

- sitting farther from the television screen,
- using a smaller television screen,
- playing in a well-lit room, and
- not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

### Avoid Damage to Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may "burn in" to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner's manual to determine if video games can be safely played on your set. If you are unable to find this information in the owner's manual, contact your television dealer or the manufacturer to determine if video games can be played on your set.

### Other Important Health and Safety Information

The Xbox Instruction Manual contains important safety and health information that you should read and understand before using this software.

Unauthorized copying, reverse engineering, transmission, public performance, rental, pay for play, or circumvention of copy protection is strictly prohibited.

## WOLVERINE

**Real Name:** James Howlett (birth name), currently known as Logan

**Group Affiliation:** X-Men™

**Base of Operations:**

Xavier Institute for Higher Learning, Westchester County, New York

**First Appearance:**

Incredible Hulk #180 (1974)

**Height:** 5'3"

**Weight:** 195 lbs. (250 lbs.

With adamantium skeleton)

**Eye Color:** Brown

**Hair Color:** Black

**Powers/Weapons**

- Animal-keen senses
- Accelerated healing factor
- Adamantium-laced skeleton
- Retractable adamantium claws

**History...**

James Howlett was born into privilege in Canada during the late 19th century, the second son of John and Elizabeth Howlett. At the shock of seeing his father shot and killed, young James manifested his latent mutant abilities when bone claws jutted from the back of each hand. The beast unleashed, James attacked and killed his father's murderer, then fled to British Columbia with Rose, the young woman he loved.

Under the identity of Logan he discovered he had other mutant abilities including animal-keen senses and an accelerated healing factor. Due to his tenacity and refusal to back down from a challenge, Logan acquired the nickname Wolverine. When Wolverine confronted the son of his father's murderer, a battle ensued, tragically ending with Rose impaled on Wolverine's claws. Wracked by grief over the death of the woman he truly loved, Wolverine fled into the woods.

He was not seen for a long time and due to his healing factor, even after 100 years Logan appeared to be in his mid-30s. During that time his life became shrouded in mystery, peppered with half-truths and anecdotal reports of unconfirmed sightings. The legend of the man called Wolverine was slowly taking form.

In the latter half of the 20th century, the government subjected Logan to a bizarre battery of experiments intended to forge the ultimate killing machine. Weapon X scientists grafted the indestructible metal adamantium to Logan's skeleton and bone claws, and introduced memory implants that shaped his past to suit their ends. Combined with the earlier effects of his healing factor, these false memories have made it impossible for Logan to discern fact from fiction when recalling his former life. He now knows little of his past, save that it was fraught with pain and loss.

Wolverine was working as an operative for the Canadian government when he accepted Professor X's offer to join the X-Men. Logan chose to stay on partly due to his belief in Xavier's vision for the co-existence of humans and mutants, and partly because of his attraction to Jean Grey. During his time with the X-Men, Logan has worked to regain his lost memories, but virtually every answer leads him to even more questions.

**Now...**

A deadly viral time bomb has been triggered in Wolverine's nervous system. The race is on to find the antidote before the virus goes lethal! Faced with a brand new adventure, Wolverine must take his powers and endurance to the very limit.

## THE BASICS

### Health and Healing

Healing occurs automatically, unless:

- Your claws are out.
- You're in combat.
- You're Feral.
- You're under the influence of gas (poisonous/choking).
- You're under the influence of the SHIVA virus (in the final two episodes).

### Claws

- Sheathe or unsheathe claws using the **White** button.
- Claws cause more damage in combat but are slightly slower than punches.
- Claws can damage some environmental objects such as wire fences, some doors, crates, etc.
- You can't heal when claws are out.
- Using claws on enemies and objects with electrical defenses will cause damage.
- Claws auto-pop when you go Feral.

### Feral Rage

- The Feral Rage Bar is located above the Health Bar.
- Rage energy builds up when you hit someone, or when they hit you.
- Rage energy depletes if no one has hit you or you haven't hit anybody for a while.
- When your energy reaches the red, trigger your rage by double-tapping the **White** button.
- Feral Rage triggers automatically when the red bar is full.
- When you go Feral your claws will pop automatically and:
  - »» You can move faster.
  - »» Your resistance to damage is better.
  - »» You cause more damage with your claw slashes.
  - »» You can't auto-heal.

### Heightened Senses

While holding the **left trigger** button, you enter Heightened Senses Mode. When in Senses mode, you are also Stealthy. In Heightened Senses Mode you can:

- Track the Thermal footprints of living beings
- Detect heat sources.
- View objects from greater distances.
- Sense objects or living beings in the dark, and hidden within other objects.
- Detect a living being's scent trail, giving Wolverine a clue to his target's location.
- Detect laser beams or trip wires.
- Stealthy movement allows you to sneak around without being heard by enemies.
- If you move into an enemy's visual range you will be detected.
- Moving stealthily against a wall will put you into wall-hug movement mode.
- When moving, you have the opportunity to stealth strike some enemies—look for the on-screen STRIKE indicator and hit the **B** button to trigger the strike.

Your Heightened Senses cannot be used when:

- In combat (you need to concentrate).
- Under the influence of gas/virus.
- When Feral.

## STRIKE MOVES & THE COMBAT PROGRESSION SYSTEM

Strike Moves are fundamental to Wolverine's fighting system and getting through the game is going to be tough without them. At the beginning of the game, Wolverine only has access to his basic move set and Combat Level One Strike Moves.

- Each combat level contains four "directionally triggered," uniquely named Strike Moves and a single-opponent finishing strike.
- There are four Combat Levels to progress through—each one more visually spectacular (and worth more points) than the last.
- Different Combat Level Strikes require different button combo presses and will cause progressively more damage to different levels of enemies. More deadly Strikes require more complex button combos to trigger. All combos are based around two buttons.
- The other levels of Strike are earned by collecting Dog Tags during play (see Dog Tags on page 13).
- In addition to Combat Strikes, there are special Stealth Strikes, Situation-Specific Strikes and Boss-Specific Strikes which become available at certain points in the game.

Strike Moves are always triggered by the **B** button. More complex Strike Moves at the higher Combat Levels are chained from the **B** button.

### Finishing Moves

B button - Triggers a level 1 finishing move—one of the three available chosen randomly.

B, Y buttons - Triggers a level 2 finishing move—one of the three available chosen randomly.

B, Y, B buttons - Triggers a level 3 finishing move—one of the three available chosen randomly.

B, Y, B, Y buttons - Triggers a level 4 finishing move—one of the three available chosen randomly.

*Note: These moves are possible only when your opponent is dizzy.*

### Grabbing

- Is triggered by pressing the **X** button when an opponent is dizzy.
- Grabbing an opponent when your claws are out will kill them instantly. Claws in will keep them alive—for now.
- Press the **X** button to punch/slash and throw an opponent or press the **B** button to throw them more quickly.
- You can use this move to your advantage by throwing opponents into other opponents (where you will receive bonus points) and triggering mines/explosives.

*Note: These moves are only possible when your opponent is dizzy.*

## ENEMY TYPES

- Early level Strikes can be deadly against weaker enemies, but stronger enemies may only be slightly damaged. Pull off tougher moves or hit them more often with the less powerful moves.
- Enemies in your immediate combat radius will always display health bars.

## DOG TAGS

Dog Tags are the "currency" in the game. They are earned in the following ways:

- Stealth Strikes = 1 tag
- Triple Strikes (the most difficult strikes to pull off) = 1 tag
- Boss Defeat = variable # tags
- If you collect enough Dog Tags, your Combat Level will increase at the next save point, allowing access to more powerful Strike Moves.

## PICK-UPS

**Health:** Boosts health. Wolverine has an accelerated mutant healing factor but sometimes needs a little extra help.

**Max Rage:** Sends Wolverine immediately into a temporary Feral rage. Useful for dispatching large numbers of enemies very quickly.

**Comic Covers:** These are the front-covers of special Marvel comic issues that give you the option to play the game in a different Wolverine costume.

## BONUSES & SECRETS

All are accessible from the Bonus Menu.

### Costume Mode: Comic Covers

Each comic cover allows you to play the game in your favorite Wolverine costume from the comics or movie.

### Cerebro Files

Each file unlocks a Patrick Stewart-narrated character bio and model viewer.

### Bronze, Silver and Gold Dog Tag Challenges

Dog Tag challenges unlock special concept/production artwork from behind the scenes that drop into your GALLERY (also in Bonus in the Options Menu). These secret challenges only become available when you have completed the main game.

## Jukebox

Listen to the music of the game.

## Gallery

Watch the movies of the game as you unlock them through natural progression. This area is where you can also view special concept/production artwork unlocked by the Dog Tag Challenges.

## GAME PROGRESSION & SAVE GAME STRUCTURE

There are 25 levels in the game spread across six acts. At the end of each successfully completed act/level, you'll see the Level Status screen.

This screen displays the following information to record how well you performed.

CURRENT ACT AND LEVEL COMPLETED	
Current Strike Level	Shows current Strike Level (1-4)
Stealth Strikes	Total achieved within section x 10,000 points
Double Strikes	Total achieved within section x 20,000 points
Triple Strikes	Total achieved within section x 50,000 points
Combat Points	Total hits achieved within section x 100 points
Bowling Bonus	Total achieved within section by hit multiplier (1000 for one guard knocked over)
Combat Score	Total Score achieved within section
TOTAL	Combat Score plus the score from your previous levels played
Dog Tags	x/x Collected
Comic Cover	Shows number of Comic Books collected.
Cerebro File	Shows number of Cerebro Files collected.

- Scores awarded for subsequent strikes at a higher combat level will be doubled (for level 2), tripled (for level 3) or quadrupled (for level 4).
- Your combat level automatically increases when the Dog Tags earned in a level reach (or exceed) the requirement for next level up. At this point, you will also be able to see how to perform the new Combat Strike Moves. To see the moves performed, you'll have to play the game and try them out!
- Once everything has been tallied, you can save your game progress and current high score to your Memory Unit or Hard Disk.
- There are five save slots you can use on the Memory Unit or ten save slots on the Hard Disk.
- Save slots will save game status, high score and option preferences.
- You can then Continue, Save, Replay or Quit. If Continue is chosen, the next level section will be loaded. Replay will enable you to replay the last level and maybe achieve a higher score, or collect a pick-up that you might have missed. Quit will return you to the Title Screen.

("ACTIVISION").

**LIMITED USE LICENSE.** Activision grants you the non-exclusive, non-transferable, limited right and license to use one copy of this Program solely and exclusively for your personal use. All rights not specifically granted under this Agreement are reserved by Activision. This Program is licensed, not sold. Your license confers no title or ownership in this Program and should not be construed as a sale of any rights in this Program.

**OWNERSHIP.** All title, ownership rights and intellectual property rights in and to this Program and any and all copies thereof (including but not limited to any files, computer code, themes, objects, characters, character names, stories, dialog, catch phrases, locations, concepts, artwork, animation, sounds, musical compositions, audio-visual effects, methods of operation, and rights, and any related documentation, incorporated into this Program) are owned by Activision or its licensors. This Program is protected by the copyright laws of the United States, international copyright treaties and conventions and other laws. This Program contains certain licensed materials and Activision's licensors may protect their rights in the event of any violation of this Agreement.

### YOU SHALL NOT:

- Exploit this Program or any of its parts commercially, including but not limited to use at a cyber cafe, computer gaming center or any other location-based site. Activision may offer a separate Site License Agreement to permit you to make this Program available for commercial use; see the contact information below.
- Sell, rent, lease, license, distribute or otherwise transfer this Program, or any copies of this Program, without the express prior written consent of Activision.
- Reverse engineer, derive source code, modify, decompile, disassemble, or create derivative works of this Program, in whole or in part.
- Remove, disable or circumvent any proprietary notices or labels contained on or within the Program.
- Export or re-export this Program or any copy or adaptation in violation of any applicable laws or regulations.

**LIMITED WARRANTY.** Activision warrants to the original consumer purchaser of this Program that the recording medium on which the Program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, Activision agrees to replace, free of charge, any product discovered to be defective within such period upon its receipt of the Product, postage paid, with proof of the date of purchase, as long as the Program is still being manufactured by Activision. In the event that the Program is no longer available, Activision retains the right to substitute a similar program of equal or greater value. This warranty is limited to the recording medium containing the Program as originally provided by Activision and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, misreatment, or neglect. Any implied warranties prescribed by statute are expressly limited to the 90-day period described above.

EXCEPT AS SET FORTH ABOVE, THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY KIND SHALL BE BINDING ON OR DELIGATE ACTIVISION.

When returning the Program for warranty replacement please send the original product disks only in protective packaging and include: (1) a photocopy of your dated sales receipt, (2) your name and return address typed or clearly printed, (3) a brief note describing the defect, the problem(s) you are encountering and the system on which you are running the Program, (4) if you are returning the Program after the 90-day warranty period, but within one year after the date of purchase, please include check or money order for \$20 U.S. currency per game disc replacement. ACTIVISION'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR THE LICENSE TO USE THIS PROGRAM. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

**TERMINATION.** Without prejudice to any other rights of Activision, this Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of this Program and all of its component parts.

**U.S. GOVERNMENT RESTRICTED RIGHTS.** The Program and documentation have been developed entirely at private expense and are provided as "Commercial Computer Software" or "restricted computer software." Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 252.227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor/Manufacturer is Activision, Inc., 3100 Ocean Park Boulevard, Santa Monica, California 90405.

**INJUNCTION.** Because Activision would be irreparably damaged if the terms of this Agreement were not specifically enforced, you agree that Activision shall be entitled, without bond, other security or proof of damages, to appropriate equitable remedies with respect to breaches of this Agreement, in addition to such other remedies as Activision may otherwise have under applicable laws.

**INDEMNITY.** You agree to indemnify, defend and hold Activision, its partners, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Product pursuant to the terms of this Agreement.

**MISCELLANEOUS.** This Agreement represents the complete agreement concerning the license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California.

If you have any questions concerning this license, you may contact Activision at 3100 Ocean Park Boulevard, Santa Monica, California 90405, (310) 255-2000, Attn: Business and Legal Affairs, legal@activision.com.
