GETTING STARTED

Last year, you rose from the "minor leagues" of the WWE to become not only one of its top Superstars, but the World Heavyweight Champion. Maybe it was too much success too quickly. Maybe you were just not ready to carry the target on your back that comes with being a champion. Or maybe you were simply betrayed. Whatever the reason, you lost the title and now must find your way back to the elusive path of vindication. This time around, the path will be even more difficult as the line between friend and foe is not always clear. This time around, trust no one...

THE GAME SCREEN

Spirit

A WWE match is a living thing and the outcome is always up in the air. *WWE Day of Reckoning 2* has a unique spirit meter that shows you how things are going. As your Superstar gets ahead in the match, your pulse will start to go wild. As you start to fall behind in the match, look out! Your pulse will start to flat line and you will be very susceptible to getting pinned.

Special Moves

As you pound your opponent during the match, the special slots will fill up. Each time you fill up a special slot, you can perform one of your Superstar's Special Moves. Press the A + B Buttons to perform a Special Taunt. This opens up a short window for you to perform the Special Move (press A + B Buttons again).

MAIN MENU

Press START at the title screen to reach the main menu. Once there, you can select from one of the following options:

EXHIBITION

Enter the squared circle in any of the many matches available in *WWE Day of Reckoning 2*. See page 6 for more details.

STORY MODE

Can you lead your created Superstar to the WWE crown at WrestleMania? Enter Story Mode to find out. See page 7 for details.

CREATE A SUPERSTAR

There are tons of Superstars available in *WWE Day of Reckoning 2*, but you will need to create your own for use in Story Mode. You get to change everything about your Superstar. Select from the many different body types, costumes, and moves. As you progress through Story Mode, you can use the cash you earn to buy more items for your created Superstars. Created Superstars are also available in Exhibition Mode.

WWE SHOP.COM

Use the money you earn in Story Mode to purchase appearances, arenas, moves, and weapons.

OPTIONS

This is your chance to change the game's sound and music settings.

NINTENDO GAMECUBE MEMORY CARDS

The game will check your Nintendo GameCube Memory Card when you launch the game. If a Nintendo GameCube Memory Card is not found, the game will prompt you to retry or continue without saving.

GAME MODES

EXHIBITION

WWE Day of Reckoning 2 has tons of matches waiting to be fought. Once you select Exhibition Mode, you'll have your choice of one of the following matches

Single	Two Superstars enter the ring to compete inside the ring.
Tag Team	Pick a pair of Superstars and duke it out against two other Superstars. Make sure you use your tag team partner in the match to keep your Superstar's fresh.
Triple Threat	Three Superstars enter the ring in a free-for-all. Concentrate on fighting one of your opponents quickly so you can get it down to a one-on-one match.
Fatal 4 Way	Now four Superstars are fighting in an all out war. Square off against one of the opponents first, then go after the others.
Handicap	Need a little boost, handicap the match by giving one opponent an edge over the other.
Royal Rumble	In WWE's signature event, you must throw all other competitors over the top rope. Can you survive the Royal Rumble?

Once you select the kind of match, select the specific match type. Your choices are: Normal Match, Hardcore Match, Ladder Match, TLC Match, Cage Match, Hell in a Cell, Bra & Panties Match, Last Man Standing, and Ironman Match.

Now that you've got the match down, select the arena you want to compete in - RAW, SmackDown!, Velocity, Heat, SummerSlam, Unforgiven, No Mercy, Survivor Series, Armageddon, Royal Rumble, No Way Out, Backlash, Judgment Day, Great American Bash, Vengeance, Taboo Tuesday, Bad Blood and WrestleMania.

The last step in setting up a match is defining the rules for the match. Depending on the match you selected, some of the rules will not be available, as they do not apply.

STORY MODE

Having overcome the odds and ascended the ranks in *WWE Day of Reckoning*, the time has come to perfect your skills and reclaim what is rightfully yours - the World Heavyweight Championship. Alliances will be forged, bodies will be broken, and rivalries will explode in the ultimate battle of WWE supremacy. Once you have created a Superstar, follow the on-screen menus, and get ready to fight!

WEAPONS, LADDERS, AND CHAIRS

Using a weapon in certain matches could result in a disqualification. But for the matches that allow them, use a variety of foreign objects to deal out the pain. When you see a weapon, press the X Button to pick them up. You can also set up the ladder or table by pressing the X Button. Climb up the ladder by holding the Control Stick toward the ladder and the Y Button - just like climbing up the tumbuckle.

OPTIONS MENU

Besides viewing the credits and changing the music and sound effects settings, you can load and save your progress in the game.
