STORYLINE

One day, as Olive Oyl was cleaning out the attic, she came across an ancient-looking map which revealed the location of Treasure Island, the secret hiding place of stolen pirate treasure. When Popeye heard the news, he rounded up a crew and they set sail for Treasure Island immediately. As luck would have it, during the voyage a storm washed Popeye's spinach overboard. All the while, unbeknownst to them, Popeye's arch-enemy, Bluto, had been following them in hopes of discovering the location of Treasure Island for his own sinister purposes. When Bluto saw that Popeye had lost his spinach, he boarded the ship, threw Popeye overboard and kidnapped his friends. Lucky for Popeye, a fishing boat found him before the sharks did and took him the remainder of the way. Its now up to Popeye to save Olive, Sweet Pea and the whole gang and find the treasure.

Insert the GAME BOY Game Pak correctly into the GAME BOY and turn the power ON. First "Nintendo®" will be displayed, followed by the Popeye2 license screen and then the title screen.

When the title screen has appeared, select a 1-player or 2-player game using the  Control Pad and then press the START button.

You can only select a 2-player game when the exclusive Game Link™ cable is connected to another GAME BOY with Popeye2.

1 PLAYER

Bring the cursor to 1-PLAYER and press the START Button.

2 PLAYERS

You need 2 GAME BOY units, 2 Popeye2 Game Paks, and 1 Game Link™ cable to play a 2-player game.

- (1) Connect the Game Link™ cable to both of the GAME BOY units, and check that the Game Paks have been inserted correctly in place. Then, turn the power switches ON.
- (2) First check that the title screens are displayed on both GAME BOY units. Then select 2-PLAYER on both of the GAME BOY units.

1 PLAYER

In this game you are always Popeye and the object is to make it through each board while racking up as many points as possible in the process. Find items and hidden doors along the way to help you out in your quest. You'd better hurry though, or time will run out and you'll lose a player. Fight the big bosses at the end of each level to save your friends and move on to the next stage.

2 PLAYERS

You and a friend can connect your GAME BOY units together and play head-to-head as Popeye and Bluto. The player finishing each board first wins that level, gains a bonus item, and gets first shot at opening treasure chests for bonus points. Whichever one of you has the highest score after 4 rounds wins the game.
