## PLAYER REGISTRATION

Player  
Registration  
Screen

To Enter your name:

1. D-Pad  $\uparrow/\downarrow$  to scroll through the letters.
2. Press  $\leftarrow/\rightarrow$  to move to the next space.
3. When you have entered your name, press START to confirm your entry and continue.

## OFFICIAL TRYOUT REGISTRATION

Take your newly created player through a series of grueling events. Each position (QB, OL, RB, WR, DL, LB, DB, K, P) has several different sets of test events. The upcoming event flashes on the screen.

- To begin each event, press C.

## 40 YARD DASH

This race is your basic all out sprint. The 40 yard dash sets the standard for gauging the speed of NFL players.

The speed of your player depends on how fast you press the buttons.

- To run, press the B and C buttons repeatedly as fast as you can.

## AGILITY DRILL

The object here is to run between the tackling dummies and make it to the finish line as quickly as you can. You are penalized 2 seconds for running on the wrong side of a dummy.

## RECEIVER CATCH DRILL

The coach wants to see what kind of hands you've got. In this drill you try to get open against some well respected defensive backs. Run any pass route you want and when you feel like you're open, call for the pass. Try and get as many yards as you can. It's pretty tough to get open and it's even tougher after a second defensive back comes out to help defend you. After eight attempts a third comes out to make you look even more foolish.

- To start the play, press C.
- To go out for a pass, D-Pad any direction.
- To call for a pass, press C.
- To dive, press A.
- To jump, press C.

**Note:** If you don't call for the pass within 5 seconds the QB throws automatically.

## DEFENSIVE BACK DRILL

It's all up to you on this drill. Nothing stands between the quarterback, the receiver and the goal line—except you. Do whatever you have to do to stop the receiver from catching the ball.

- To run, D-Pad any direction.
- To dive, press A.
- To spin, press B.

## 10 YARD FIGHT DRILL

This one's pretty straightforward. Show the coach if you're quick enough, strong enough and have enough heart to go

one-on-one, one-on-two and one-on-three against some angry defenders and make it across the goal line. Just to make sure you don't wimp out and try to run away, you can't run outside of the hash marks or back behind the 15 yard line.

- To run, D-Pad any direction.
- To dive, press A.
- To spin, press B.

## DEFENSIVE 10 YD. FIGHT

Here's your chance to go head on with those running backs that are always pestering you. They don't have much running room, but you still have to make an open field tackle and stop him from scoring.

- To run toward the back, D-Pad any direction.
- To dive at the running back, press A.

## PLAYING THE GAME

### COIN TOSS

The visiting team captains call the coin toss in the air.

- To select heads/tails D-Pad  $\leftarrow/\rightarrow$ .

The team that wins the toss has the option to kick or receive the opening kickoff.

- To kick, press **A**. To receive, press **C**.

The team that loses the toss chooses the goal that they want to defend.

- To defend the home goal, press **A**. To defend the visitor goal, press **C**.

**Note:** To assist you in your choice of goal, the wind sock displays which direction the wind is blowing.

## THE KICKOFF

The opening kickoff can set the emotional tone for the entire game. Make sure your special teams are pumped up before you take the field and kickoff.

## KICKING

## To kick the ball:

1. When your team is lined up in kicking formation, press **C** to set your kicker in motion and start the power bar.
2. D-Pad  $\leftarrow/\rightarrow$  to aim the kick.
3. Press **C** again to stop the power bar and kick the ball. The higher the power bar is at the time you stop it, the further the ball will travel in the air.

As soon as the ball is in the air, rush your kicking team down field as fast as possible and smash the kick returner.

## To make a special teams tackle:

- To chase down the kick returner, D-Pad any direction.
- To take control of the player on your team that is closest to the ball, press **B**.
- To make a diving tackle, press **A**.
- To make a big hit, press **C**.

## ONSIDES

Use the inside kick to attempt to quickly regain possession of the ball and get back on offense. If you're behind at the end of a game you may want to try an inside kick.

An inside kick must travel at least ten yards. Once the ball has gone ten yards it's "live" and the team that recovers it takes over on offense.

## To attempt an inside kick:

1. From kicking formation, press **A** to call up the audible indicator.
2. Press **A** or **C** to set the inside kick formation. Your kicking team shifts to the right or left-hand side of the ball.

- To return to standard kickoff formation, press **A** to bring up the audible indicator again then press **B**.
3. Press **C** to set the kicker in motion and start the power bar.
  4. D-Pad  $\leftarrow$  or  $\rightarrow$  and press **C** again immediately to stop the power bar.

## RECEIVING

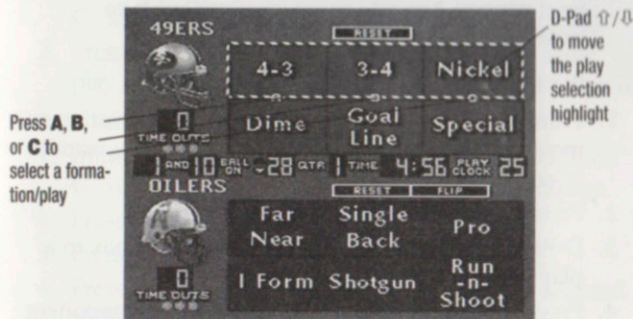

If you don't take control of the kick returner, he automatically gets under the ball and catches it and begins to run up field. If the kick is deep and he catches it in the end zone he remains in place until you run him out. If you do not run him out, the referee signals a touchback and the ball is taken out to the 20 yard line.

### To control the kick returner:

- To run when you have possession of the ball, D-Pad any direction.
- To dive for that last bit of yardage, press **A**.
- To spin out of a tackle, press **B**.
- To get a burst of speed and get around a tackler, press **C**.
- To lateral to your nearest teammate, press **START**.

## CALLING A PLAY

### To choose formations and plays:

1. The Play Calling screen appears before each down. From the huddle, D-Pad  $\uparrow/\downarrow$  to scroll through the formations.

3. D-Pad  $\uparrow/\downarrow$  to scroll through the plays.
  - To run an offensive play in the opposite direction, D-Pad  $\uparrow$  to highlight **FLIP** and press **C**. To return the play to its default direction, highlight **FLIP** and press **C** again.
4. Press **A**, **B**, or **C** to select the play in the corresponding box.

**Note:** After you have selected a formation and called a play, the only way to change your decision is to call a timeout or an audible from the line of scrimmage. If you call a timeout, you are sent back to the huddle where you may choose a different play.

#### To call a formation and play in Bluff mode:

1. From the Play Calling screen, D-Pad any direction to move the highlight box to the formation you want to select.
2. Press **C** to select. The play choices appear.
3. D-Pad any direction to move the highlight box to a play you want to use as a bluff.
4. Press **B**. Bluff several plays to confuse your opponent.
5. D-Pad any direction to move the highlight box to the play you want to run.
6. Press **C**. The play is selected, but you stay at the Play Calling screen.
7. Press **B** to bluff another play or so.
8. Press **A**. You return to the field and your opponent has no idea what you are going to run.

## OFFENSE

### NO HUDDLE

When the clock is running down at the end of the half or, more critically, at the end of the game, you may want to save time and bypass the Play Calling screen. At the end of a play, you can get right back on the line of scrimmage by running a no huddle offense.

#### To execute a no huddle play:

1. Immediately after the ref. blows the play dead, hold **C**. Your team rushes back to the line of scrimmage.
2. Press **C** to snap the ball. Your team runs the same play it ran the previous down.

#### To run an audible from a no huddle play:

1. Immediately after the ref. blows the play dead, hold **C**. Your team rushes back to the line of scrimmage.
2. Press **A** to call up the audible indicator.
3. Press **A**, **B**, or **C** to select the desired audible.
4. Press **C** to snap the ball. Your team runs the selected audible.

#### To stop the clock from a no huddle play:

1. Immediately after the ref. blows the play dead, hold **A**. Your team rushes back to the line of scrimmage.

## RUNNING PLAYS

On the Play Calling screen, rushing plays are displayed against a grey background on the play choices. You can watch the Genesis execute the play or take control of the ball carrier after the hand-off. A color-coded star and jersey number appear beneath the ball carrier's feet so you know who he is.

#### To execute a rushing play:

1. When the offensive line is set, press **C** to snap the ball. The hand-off or toss is automatic.

2. D-Pad any direction to take control of the ball carrier and start breaking tackles.

#### To break tackles and shake defenders:

- To get a burst of speed and get around a tackler, press **C**.
- To lateral to your nearest teammate, press **START**.

**Note:** If your quarterback is the ball carrier and in danger of being tackled, press **A** to make him slide feet first. This is a good way to prevent the quarterback from getting injured from a rough tackle.

### PASSING PLAYS

On the Play Calling screen, passing plays are displayed against a blue background on the play choices. You can let the Genesis execute the play for you or control the quarterback and take over yourself.

#### To execute a passing play:

1. When the offensive line is set, press **C** to snap the ball.
2. D-Pad any direction to move the quarterback and take over control of the play.
3. Press **C** to call up the passing windows. A yellow letter appears next to each eligible receiver on the field. These letters correspond to the **A**, **B**, and **C** buttons on the Controller.
  - To throw the ball away if all the receivers are tightly covered, press **START**.

Press **A**, **B**, or **C** to throw a pass to the corresponding receiver]

4. Press **A**, **B**, or **C** to throw a pass to the corresponding receiver.

Watch the receivers run their patterns on the field and throw a pass to the open man. Once the ball is in the air, a yellow crosshair appears on the field marking the ideal reception spot. The receiver automatically completes his pattern toward the crosshair, raises his hands for the ball and runs upfield—if he makes the catch.

You can manually control the designated receiver while the ball is still in the air to make the catch.

#### To control the intended receiver:

1. When the ball is in the air, press **B** to take control of the intended receiver. A color-coded star appears on the field beneath the player.
2. D-Pad any direction to guide the receiver toward the yellow crosshair.
  - To jump and raise hands for the ball, press **C**.
  - To dive for the ball, press **A**.

**Note:** When playing in the Manual Pass Catch mode, you *must* take control of the intended receiver or he will simply run his designated pattern.

## DEFENSE

Select your defensive formations and play the same way you select offensive plays, described above.

If you don't choose a formation and a play in time, your team lines up to run the same play it ran the previous down.

### To execute a defensive play:

1. When the defensive line is set, press **B** to take control of a different defensive player.
2. D-Pad any direction to move the controlled player.

**Note:** Defensive players can be repositioned anywhere you like, but if they make contact with the offensive line before the ball is snapped or are past the line of scrimmage when the ball is snapped, an offside penalty is called.

### To tackle the ball carrier and break up offensive plays:

- To take control of the player closest to the ball, press **B**.
- To dive, press **A**.

### **PLAYER STATS**

The Player Stats screen displays current game statistics for each player on the team. Stat categories are separated by position, and rosters are listed one team at a time.
