SETTING UP

Set up the PSP™ system according to the instructions in its instruction manual. Turn the PSP™ system on and the POWER indicator will light up green. The Home Menu will be displayed. Press the OPEN latch to open the disc cover. Insert the **SOCOM: U.S. Navy SEALs Fireteam Bravo** disc with the label side facing the rear of the PSP™ system and then securely close the disc cover.

Select the  from the Home Menu and then select the . A thumbnail image of the software will be displayed. Select the image and press the  button to commence loading.

PLEASE NOTE: the information in this manual was correct at the time of going to print, but some minor changes may have been made late in the product's development. All screenshots for this manual have been taken from the English version of this product, and some screenshots might have been taken from pre-completion screens that differ slightly from those in the finished product.

MEMORY STICK DUO™

To save game settings and progress, insert a Memory Stick Duo™ into the Memory Stick Duo™ slot of the PSP™ system. Saved game data can be loaded from the same Memory Stick Duo™ or any Memory Stick Duo™ containing previously saved **SOCOM: U.S. Navy SEALs Fireteam Bravo** data. Make sure there is enough free space on the Memory Stick Duo™ before commencing play.

SOCOM: U.S. Navy SEALs Fireteam Bravo uses an autosave feature. Do not insert or remove the Memory Stick Duo™ after start-up as doing so may cause data to be overwritten.

In Single Player mode, progress will be automatically saved to Memory Stick Duo™ between missions if a Memory Stick Duo™ with at least 800KB of free space is inserted. In Single Player mode, previously saved data will be loaded automatically upon start-up, and can be accessed by selecting "Continue Campaign Menu" from the "Campaign Menu" on the Main Menu.

SETTING UP THE HEADSET

The Headset can be used to conduct two-way conversations with other players during online sessions and is useful for barking orders and giving warnings. Used in conjunction with the Headphones with Remote Control for PSP™, the Headset must be inserted into the remote control and then the remote control must be inserted into the headset connector on the PSP™ system.

NOTE: using the Headset is optional but highly recommended for online play.

WIRELESS (WLAN) FEATURES

Software titles that support Wireless (WLAN) functionality allow the user to communicate with other PSP™ systems, download data and compete against other users via connection to a Wireless Local Area Network (WLAN).

AD HOC MODE

Ad Hoc Mode is a Wireless (WLAN) feature that allows two or more individual PSP™ systems to communicate directly with each other.

GAME SHARING

Some software titles feature Game Sharing facilities which enable the user to share specific game features with other users who do not have a PSP™ (PlayStation®Portable) Game in their PSP™ system.

INFRASTRUCTURE MODE

Infrastructure Mode is a Wireless (WLAN) feature that allows the PSP™ system to link to a network via a Wireless (WLAN) Access Point (a device used to connect to a Wireless network). In order to access Infrastructure Mode features, several additional items are required, including a subscription to an Internet Service Provider, a network device (e.g. a Wireless ADSL Router), a Wireless (WLAN) Access Point and a PC. For further information and setting up details, please refer to the PSP™ system Instruction Manual.

DIRECTIONAL BUTTONS – MOVEMENT

In this manual, ↑, ↓, ←, → etc. are used to denote the direction of both the directional buttons and the analog stick unless stated otherwise.

FIRETEAM COMMAND LIST

Fireteam is the name of the two-man SEALs unit at your command and it consists of yourself, codenamed SANDMAN, and your SEAL team-mate, Tate Rawlins a.k.a. LONESTAR. One of LONESTAR's primary responsibilities is to cover your back during combat situations. LONESTAR will never move too far away from you and he will always endeavour to rejoin you if you wander off on your own.

LONESTAR can be instructed to foray a short distance away from your position in order to execute some of the following commands:

DEPLOY

If LONESTAR is equipped with grenades, C-4 or satchel charges, he will respond to your command by dispatching his explosive payload.

FOLLOW

Shadowing your every move, LONESTAR will take your lead and follow behind you copying your body position.

FIRE AT WILL

LONESTAR will open fire on any enemy within range.

REGROUP

Command LONESTAR to return to your position.

MOVE TO

Instruct LONESTAR to move to a designated position as indicated by the crosshairs.

STEALTH TO

Order LONESTAR to move in a stealthy manner to a position as indicated by the crosshairs.

BREACH

Order LONESTAR to open a door and secure the area on the other side of the doorway by force.

INTERACT

Order LONESTAR to perform a Special Action.

HOLD POSITION

Order LONESTAR to hold his position until commanded otherwise. LONESTAR will always stay within a certain distance of you, so if you move beyond that designated distance, he will break position and return to cover you.

HOLD FIRE

Command LONESTAR to hold fire until you countermand the order or until he spots an enemy who is about to open fire.

COVER TARGET

Give the command to cover a specific zone, and LONESTAR will open fire on any enemy that enters the zone, as long as he has visual contact with the specified zone.

GET DOWN

Order LONESTAR into the prone position.

KILL TARGET

If LONESTAR has a target in view, he can be instructed to shoot to kill.

NOTE: an escortee can also be instructed to perform a specific action as long as they are travelling with your unit.

USING THE CROSSHAIRS AND NAV POINTS

Use the crosshairs to send LONESTAR to a specific location, for example, place the crosshairs on a specific location such as a doorway and issue the "MOVE TO" command to instruct LONESTAR to move into the doorway area.

Nav Points are map coordinates that mark key positions in the op area. Nav Points, such as Charlie, Delta, Echo and Foxtrot, are created prior to insertion and will be displayed on-screen as geographical reference points. Nav Points can be viewed on the TacMap by using the **←** and **→** buttons to navigate and zoom in and out. Please refer to the TacMap section and the Mission Objectives section of this manual for detailed instructions on how to use the TacMap.

GETTING STARTED

USING MENU SCREENS

Press **↑**, **↓**, **←** or **→** to highlight an option, then press the **×** button to confirm. To return to the previous menu screen, press the **○** button.

TITLE SCREEN

The Title Screen will be displayed. Press the **×** button to access the Operations Control Network (OCN) interface and press the **×** button again to access the "Create a New Profile" Screen. Use the virtual keyboard to enter a profile name. Press **↑**, **↓**, **←** or **→** to highlight a character on the virtual keyboard and press the **×** button to confirm. When finished, highlight "Enter" and press the **×** button to access the Main Menu.

MAIN MENU

INSTANT ACTION

Once a mission has been completed in Campaign mode, you can enter Instant Action mode and play the same mission map from five different game types and three different difficulty levels. Use the analog stick or directional buttons to highlight an option and press the **×** button to confirm each choice. Press the **□** button to randomise the mission variables.

HOSTAGE EXTRACT

Find the hostages and safely deliver them to the extraction zone.

STEALTH EXTRACT

Find the hostages and safely deliver them to the extraction zone without being detected. If spotted by an enemy, the hostile must be neutralised within seconds or else the mission will result in failure.

SWEEP AND CLEAR

Eliminate all hostiles within a set amount of time.

SABOTAGE

Find the satellite terminal and command LONESTAR to disable it to complete the mission.

STEALTH SABOTAGE

Find the satellite terminal and command LONESTAR to disable it. If spotted by an enemy, the hostile must be neutralised within seconds or else the mission will result in failure.

NOTE: each time a map is attempted in Instant Action mode, items and enemy positions will be randomized.

EXTRAS

View and access great extras such as movies, weapons and new characters that have been successfully unlocked either by completing missions in **SOCOM: U.S. Navy SEALs Fireteam Bravo** or by synchronising saved data between **SOCOM 3: U.S. Navy SEALs** and **SOCOM: U.S. Navy SEALs Fireteam Bravo** via Crosstalk.

CROSTALK

Mission goals can be influenced in either **SOCOM: U.S. Navy SEALs Fireteam Bravo** (for PSP™) or **SOCOM 3: U.S. Navy SEALs** (for PlayStation®2) (sold separately) by first completing specific Crosstalk objectives in one title and then synchronising the saved data with the other title and vice versa.

In order to synchronise data between **SOCOM: U.S. Navy SEALs Fireteam Bravo** and **SOCOM 3: U.S. Navy SEALs**, the PSP™ system must first be connected to a PlayStation®2 console (sold separately). To connect a PSP™ system to a PlayStation®2 console and access the Crosstalk features of both titles, use a standard USB cable with a Mini-B connector to link the PSP™ system to one of the USB connectors on the front of the PlayStation®2 console.

Once the PSP™ system and the PlayStation®2 console have been connected by USB cable, please ensure that **SOCOM: U.S. Navy SEALs Fireteam Bravo** has been inserted correctly into the PSP™ system and that **SOCOM 3: U.S. Navy SEALs** has been inserted correctly into the PlayStation®2 console, before accessing the Main Menu in each title. Select "Profile" in each title and then select the "Extras" option. Select the "Crosstalk" option for each title and press the \times button to access the Crosstalk screen which will display all objectives completed and rewards gained.

Highlight the "Sync All Files" option on the "Crosstalk" screen of **SOCOM: U.S. Navy SEALs Fireteam Bravo** and press the \times button. A file synchronisation message will be displayed on-screen. Highlight the "Sync All Files" option on the "Crosstalk" menu of **SOCOM 3: U.S. Navy SEALs** and press the \times button, and finally press the PSP™ system's \times button to begin synchronisation.

SOCOM 3: U.S. Navy SEALs will then display an on-screen message prompting you to save your profile. Select "Yes" to overwrite a previously saved profile with a new profile that incorporates the "Crosstalk" features from **SOCOM: U.S. Navy SEALs Fireteam Bravo**. Simultaneously, the profile for **SOCOM: U.S. Navy SEALs Fireteam Bravo** will be automatically saved to Memory Stick Duo™.

SINGLE PLAYER MODE GAMESCREEN

- | | |
|-----------------------------|----------------------------|
| 1 Nav Point | 2 Target Lock Box |
| 3 Team Command Action (TCA) | 4 Compass |
| 5 Weapon Display | 6 Team Member Status panel |

COMPASS

Located in the top right-hand corner of the screen, the compass can be used as an aid for navigating the operation area. Due north is indicated by the letter "N" on the compass, and your position will always be displayed at the centre of the compass as an orange square with a white view cone extending in the direction of orientation. LONESTAR will be displayed on the compass as a blue square.

WEAPON DISPLAY

The currently equipped weapon and ammo info will be displayed in the bottom left-hand corner of the screen.

TEAM MEMBER STATUS PANEL

The Team Member Status panel located in the bottom right-hand corner of the screen displays the health meter of each SEAL. If the health meter turns from green to red, then death may be only a few bullets away, and if the health meter depletes completely then they'll be sending you home in a body-bag!

TEAM COMMAND ACTION (TCA)

When you point the crosshairs at an area where a TCA interaction is executable, a blue text bar will be displayed above the Team Member Status panel in the bottom right-hand corner of the screen. The blue text bar will display the type of TCA that is currently possible to execute. Press and hold the \circ button while the blue text bar is visible in order for LONESTAR to perform the TCA.

SPECIAL ACTIONS

Special Action messages will be displayed at the top of the screen when it is possible to carry out an immediate task or if an item close at hand can be used to your advantage. Press the button to execute a Special Action, such as restrain a civilian, pick up weapons from fallen enemies, pick up other useful items, open or close a door, climb walls or descend ledges, place C-4 or satchel charges or use a knife for stealth kills.

Furthermore, the Follow, Hold Position and/or Get Down icons will be displayed when you aim the crosshairs at a person under your protection. Press the button to give the person the selected command.

CROSSHAIRS/WEAPON RETICULE

Use the crosshairs or other sights to aim weapons. The crosshairs will be displayed whenever you are holding a firearm, including rocket-propelled grenades or rockets. A grenade sight will be displayed when you are equipped with a grenade – remember to stand well back once you have launched the grenade.

The crosshairs can also be used to direct LONESTAR to precise positions in the op area; for example, point the crosshairs at a specific location, then tap the button to display the Team Command Action menu and select the "Move To" option and LONESTAR will immediately relocate to your chosen position.

The crosshairs can also be used to point at specific items of interest in order for LONESTAR to perform a Special Action upon; for example, point the crosshairs at a generator and then tap the button to display the Team Command Action menu and select the "Disable Generator" option and LONESTAR will set about disabling the generator.

The weapon reticule, positioned in the centre of the screen, displays the potential bullet spread of the currently equipped weapon, and when stationary, crouching or in the prone position, the lines on the weapon reticule will contract to indicate that your shots will be more accurate in finding their mark. For rocket launchers and rocket-propelled grenades, the reticule will use a static reticule without spread indicators.

PLAYING THE GAME

USING THE TACTICAL MAP (TACMAP)

Press the SELECT button to access the TacMap/Mission Objectives screen to navigate the environment and keep track of the mission specifics. The TacMap and Mission Objectives contain all of the current objectives and intelligence about the operational area. SANDMAN's position will be displayed on the TacMap as a small orange square with a white view cone extending in the direction of his orientation. LONESTAR will be displayed as a blue square.

Press the analog stick to move the TacMap view and press the L or R buttons to zoom the TacMap in or out. Press the button to snap the TacMap back to your current position. Press the button to snap the TacMap to the location of the current objective. Press the button to get more information for a highlighted objective.

The TacMap can also be used to keep track of SOCOM's mission objectives, as well as new objectives that may be added during the mission. The mission objectives list will be displayed to the left of the TacMap. Select an objective and press the button to view a brief description of the objective. Mission objectives are colour coded as follows:

- Green:** Current/highlighted objectives.
- White:** Objectives yet to be completed.
- Yellow:** Completed objectives.
- Red:** Failed objectives.
- Blue:** Bonus/hidden objectives completed.

USING WEAPONS

To fire an equipped weapon, press the **X** button. Your shots will be more accurate when fired from a stationary, crouching or prone position. Press and hold the **△** button to toggle between your primary weapon and grenades. Press the **←** button to open the inventory menu and press the **↑** or **↓** buttons to highlight an item, then press the **X** button to equip it.

Press and hold the **□** button to manually reload the weapon as long as there is enough ammo for the weapon in hand.

WEAPON FIRE MODE

Many assault weapons have multiple firing modes ranging from a semi-automatic single shot to a three shot burst or more. To switch firing modes, press the **←** button to open the inventory menu, highlight a weapon and press the **△** button to switch its firing mode. The bullet icons in the Weapon Display in the bottom left-hand corner of the screen will increase or decrease depending on the setting. If equipped with the grenade launcher, press the **△** button until the reticule changes to the rocket reticule.

AIMING A WEAPON/TARGET LOCK

Tap the **→** button to enter Free Look mode and use the analog stick to manually aim the weapon and recon the immediate surroundings. Tap the **→** button again to exit Free Look mode. Press and hold the **□** button to lock on to the nearest target and cycle through multiple targets by tapping the **L** button while holding down the **R** button. When target locked onto an enemy, a red box will be displayed around the enemy and the reticule will snap to his body if in range. Based on your movement, stance and distance from your target, the reticule will move between the enemy's lower torso and head. Other potential targets in range will be identified by a grey box, but be mindful not to take out innocent civilians.

USING A SCOPE

Press the **↑** button to zoom in the scope and press the **↓** button to zoom out or exit the scope. Scope performance is different depending on the weapon in hand and steadier shots can be fired from a crouching or prone position.

THROWING A GRENADE

To throw a grenade, press the **←** button to open the inventory, then select a grenade and press the **X** button to equip it. Once equipped, press and hold the **X** button to display the grenade trajectory marker. Hold the **X** button to set the strength of the grenade lob, and then release the **X** button to throw the grenade.

SETTING A CLAYMORE MINE

Press the **←** button to open the inventory, select the claymore and press the **X** button. Determine the location you want to cover and place the mine by pressing the **X** button. Conveniently, the claymore mine's remote control detonator will then be displayed in your inventory. Select the remote control and press the **X** button to detonate the mine. Multiple mines can be planted and simultaneously detonated by placing the mines, then selecting the detonator from the inventory and pressing the **X** button.

PLANTING A PRESSURE MINE (MULTIPLAYER ONLY)

Press the **←** button to open the inventory, select the mine and press the **X** button to confirm. Press the **X** button again to place the mine and it will detonate when stepped on.

SINGLE PLAYER MODE

The success of each mission is measured by several factors and you will be graded from A (best grade) to F (worst grade). Perfection for any factor is 100% in completing all objectives.

TIPS FOR MISSION SUCCESS

USE STEALTH

A SEAL uses stealth to strike undetected. Your Stealth Grade rating will be negatively affected each time your team is discovered and the enemy manages to communicate your presence to others.

BE ACCURATE

Hitting targets increases your Accuracy Grade, but missing targets decreases it. The accuracy of your team-mate will also be taken into account when tallying up the Accuracy Grade.

PROMOTE TEAMWORK

Use your team for cooperative engagements. The more you use your teammates during the course of a mission, the higher your Teamwork Grade will be.

ACHIEVE YOUR OBJECTIVES

Primary objectives are the most important mission objectives and have the largest impact on mission success. Most primary objectives must be completed to accomplish a mission, but failed secondary objectives will lower your Objective Grade.

MISSION FAILURE

Missions will be considered a failure under the following conditions:

- You are incapacitated.
- A mission critical character, such as a hostage or escortee, is killed.
- A mission critical target escapes.
- A mission critical objective fails.
- You abort a mission.
- LONESTAR is incapacitated.

THE PAUSE MENU

Press the START button to access the Pause Menu. Press the **↑** and **↓** buttons to highlight a menu option and press the **×** button to confirm.

NOTE: accessing the Pause Menu during online gameplay will not pause the game.

RESUME

Resume the action from where you left off.

AIM PITCH

Choose either Normal or Inverted.

RESTART MISSION

Start the mission again from the insertion point.

ABORT MISSION

End the current mission and return to the Briefing Menu.

When data entry is required, the virtual keyboard will be displayed automatically. To chat, press the **□** button to open the virtual keyboard.

Press **↑**, **↓**, **←** or **→** to highlight a keyboard character, and then press the **X** button to confirm. Press the **□** button to backspace. Press the **L** button to alter the capitalisation of the characters. Press the **R** button to toggle Caps Lock on or off. Select "ENTER" or press the **△** button to enter data or transmit chat. Select "EXIT" or press the **○** button to close the virtual keyboard without transmitting or entering data.

NOTE: chat and data can only be entered via the virtual keyboard when connected to a Game Room.

IN-GAME COMMUNICATIONS MENU

Tap the **○** button to open the Chat Window. Press the directional buttons to highlight a Chat Window option and press the **X** button to transmit the message.

FRIEND INVITE: Invite an in-game player to be a friend.

CLAN INVITE: Invite an in-game player to join your clan.

IGNORE: Turn off text messaging and voice chat from a specific player.

VOTE: Vote to have a player removed from the game.

RADIO: Silence a particular opponent by selecting the Mute Player option, and turn the Voice Chat option on or off. The "Who's Talking" icon will be displayed when someone is communicating via the Headset.

TAUNTS: Direct preset vocal taunts and customisable text message taunts at the opposition.

ORDERS: Give orders to your team that will be displayed in the Dialogue Box at the top of the screen.

USING THE HEADSET ONLINE

Use the Headset to conduct two-way conversations with team-mates during online sessions, safe in the knowledge that enemies will not be able to hear your team's communications at all.

TO SPEAK:

Press and hold the **O** button until you hear the ready tone and then speak normally, keeping to a brief transmission of ten seconds or less. Minimise chatter to give everyone a chance to communicate and release the **O** button to end the voice transmission.

PLAYING THE ONLINE GAME

ONLINE MISSION TYPES

SUPPRESSION

Suppression missions feature a pure fight to the death between SEALs and terrorists. The winner has the most men left standing at the end of the mission. Suppression maps can be set to re-spawn and players will be given the option to rejoin the fight by coming back to life after being killed.

FFA (FREE FOR ALL)

It's terrorists against terrorists in an intense all-out Free For All deathmatch.

EXTRACTION

Extraction missions feature tense hostage situations where SEALs win by killing all of the terrorists or by escorting at least two hostages to the extraction point. Terrorists win by killing all of the SEALs or by preventing the rescue of hostages.

DEMOLITION

Find the bomb and blow up the opposition's headquarters, before your enemies intercept you. Plant the bomb in the enemy's base and then prevent it from being defused by the enemy until it blows up. Timing your escape is vitally important and if the bomb falls into enemy hands before it detonates then it will be your HQ under threat.

CAPTIVE

Captive missions see a fight to the death between SEALs and terrorists, but you have the power to revive fallen team-mates. The winner is the team with the most men left standing at the end of the time limit or the team that has completely incapacitated the whole of the opposition.

THE ONLINE GAMESCREEN

- 1 Shots remaining
- 2 Current Weapon
- 3 Crosshairs
- 4 Compass
- 5 Magazines remaining
- 6 Countdown Timer
- 7 Health Meter
- 8 Hostile

CROSSHAIRS

Use the crosshairs to aim your weapon. The crosshairs will turn green when aimed at friendlies and hostages. The crosshairs will turn red when aimed at an enemy. The crosshairs will change shape depending on the selected weapon.

HEALTH METER

Displays your current health status.

COUNTDOWN TIMER

Counts down to zero in games with time limits.

CURRENT WEAPON

Press and hold the Δ button to switch between your primary and secondary weapons. To select an item from the inventory, press the \leftarrow button to open the inventory screen, then press the \uparrow/\downarrow buttons to highlight an item. Press the \times button to equip the item. Press the \leftarrow button and then press the Δ button to switch a weapon to semi or fully automatic.

SHOTS REMAINING

View the number of shots remaining and maximum total for the clip. To reload manually, either press and hold the \square button or press the \leftarrow button and then press the \square button.

ONLINE HEADSET ICONS

If you are talking, a green tick icon will be displayed within the Headset icon. If someone on your team is talking, the Headset icon will turn red. A red circle with a slash through it will be displayed within the Headset icon. The name of the player currently speaking will be displayed above the Headset icon.

A small Headset icon will be displayed above the head of a player that is currently talking on the Headset channel (if that player is within view).

PLAYER RANKINGS (RANK INSIGNIAS)

Depending on your performance, you can attain a variety of Player Rankings. Online rankings are an indicator of your skill and experience, but also determine what Briefing Rooms and games you can enter. Certain Briefing Rooms are restricted to specific Player Rankings.

THE START MENU

NOTE: accessing the Start Menu during online gameplay will NOT pause the game.

Press the START button during an online session to access the following options:

RESUME

Close the Start Menu.

AIM PITCH

Choose either Normal or Inverted.

ABORT MISSION

Abort the current mission and return to the Online Operations Control Network (OCN) Menu.
