If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Set up your PlayStation[®]2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned ON. Press the RESET button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the Asterix[®] & Obelix[®] disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

Memory Card (BMB) (for PlayStation[®]2)

THE VILLAGE IS DESERTED!

It is 50 B.C., and Caesar and his elite troops have pulled off the impossible. Taking advantage of a sudden spring storm and the absence of our two heroes, the Romans invaded the indomitable Gaulish village. Upon their return to the village, Asterix and Obelix quickly learn what has happened. Everybody is now Caesar's prisoner, and the Romans have also seized a cauldron full of Magic Potion! While the cauldron is on its way to Rome, the Gaulish prisoners have been split up and scattered across the Roman Empire. Without a moment's wait, Asterix and Obelix set off in search of their friends.

PLAYING THE GAME

This information appears depending on the context:

Asterix & Obelix

Two heads are better than one!

It won't be easy for our Gaulish duo. But they have one sure-fire advantage over the enemy hordes awaiting them — there are two of them! During the game, leadership shifts automatically between Asterix and Obelix, depending on the challenges you will encounter. You can also switch leadership by jumping onto certain objects that are surrounded by a blue aura. Remember, alternating our two heroes' particular skills is essential to your quest!

In combat, the follower will come closer to the leader to help out, and he will fall back a little when things are calm.

Dogmatix

Dogmatix is always available to help you battle the Romans. Press the R1 button in battle to deploy him and to bite your enemies.

Character progression

Asterix and Obelix initially have one basic attack — the Bash — but if you collect enough Roman helmets, you can buy Combo attacks from the Peddler (see "Combos" on page 8).

The Action button

The Action button is displayed on the screen when the character you are controlling can do something special such as pull a lever, light a torch, talk to the Peddler, etc. Press the **■** button to perform the action when indicated.

Energy gauge

Each time you bash a Roman, the energy gauge on the left side of your screen fills up. To execute combos, this gauge needs to be full, then you can continue to use combos until the gauge is empty. If you stop bashing, the energy level in the gauge will drop.

SAVING AND LOADING

In each level, you will encounter sleeping Druids. Wake them up (press the **■** button) and they will offer you the chance to save your game. Later, if you load a saved game from the Main Menu, you will restart the game beside the Druid. When a game save location is activated, that location appears on the Great Map. The game requires 360 KB of free space on your memory card to save your progress.

To load a previously saved game, select Load Game from the Main Menu.

THE GREAT MAP

Province Selection

Each province you complete adds a new fragment to the Great Map. Plus, you will be able to access the province revealed by the fragment. As you explore the provinces, you can collect Gold Laurels. If you find all the Gold Laurels in the province you are exploring, you will receive a special reward.

PROVINCES

THE VILLAGE (GAUL)

Complete this level to win map fragment 1

This training level will limber up your Gaulish reflexes. Release Getafix from his Roman captors to move on to the next level.

NORMANDY

Complete this level to win map fragment 2

Explore the beautiful Norman coastline and overcome hordes of Normans in order to rescue Fulliautomatix.

GREECE

Complete this level to win map fragment 3

You will have to use your brain-box, and ignore a fear of heights, if you want to reach Athens' prison.

HELVETIA

Complete this level to win map fragment 4

Climb and sled on the Swiss Alps in order to reach the Governor's palace.

EGYPT

Complete this level to win map fragment 5

Get ready! Disable Roman military equipment and your battles here will go down in history!

ROME

Enter Rome to grapple with bad guys and lions — and the final showcase battle!

THE PEDDLER

Use Roman Helmets as currency to buy combos, Leg O' Boar and Shields from the Peddler. To talk to the Peddler, walk up to his stand and press the Action button.

COMBOS

To activate a combo attack, you need to bash enough enemies to fill your energy gauge. Once it's full, press the proper button combination to launch the attack!

MOVE	CHARACTER	PICTURE	BUTTONS	DESCRIPTION
Rage Combo	Dogmatix		R1 button	Dogmatix can be launched quicker and further so that he can disarm more Romans before he returns.
Club Combo	Asterix-Obelix		X X ■ ▲ buttons	Grab an opponent and use him as a club to strike the ground (or nearby enemies). Press the X button multiple times to pound the enemy down faster. Striking the ground generates a shock wave that disarms any opponents nearby. The Roman is ejected on the sixth impact.
Power-hammer Combo	Asterix		X ▲ ■ buttons	Grab an opponent and use him as a power-hammer that causes nearby enemies to drop their weapons and retreat.
Mole Combo	Asterix		X X ● ▲ buttons, then ■ button, ■ button	Eliminate a column of Roman troops in turtle formation. After a Double Jump, Asterix spins and makes a dive before burrowing into the ground at high speed. From underground, he eliminates all enemies near the impact zone.
Twister	Asterix-Obelix		X ■ ▲ ● buttons	Asterix and Obelix are both transformed into tornadoes that suck enemies in as they gain speed.
Twister Fusion Combo	Asterix-Obelix		■ button	Press the ■ button when the tornadoes are together and linked by an electric arc. The Twister Fusion is more powerful than the Twister.

MECHANISMS, ITEMS & LOCKS

Mechanisms

Sometimes you will find an object that takes both heroes to operate. For example, when Asterix climbs into the basket of the cable car, control switches to Obelix, who has to move Asterix along by pulling a rope. Other mechanisms (such as the Catapult, the Rotating Beam, and others) work in a similar way.

Items

Each **Shield** contains five Life Points. (You have three shields when the game begins.)

The **Leg O' Boar** replenishes Life Points.

To collect a **Roman Helmet** you simply have to walk over it. You obtain a number of points depending on the type of helmet collected.

The **Roman Helmet Multiplier** gives you a bonus, multiplying the number of Roman Helmets you collect for several seconds.

Only Asterix can collect gourds of **Magic Potion**, and he consumes it as soon as he collects it. If Asterix is already under the effect of Magic Potion, and he comes into contact with another gourd, an enormous shock wave is created that eliminates all Romans in proximity.

Locks

You will sometimes encounter **Locks**. To unlock them you will need to defeat the number of Romans indicated.

possible Cheat Code combination keys, and instructions for finding secret screens and/or additional game levels (if these type of items exist and are made available for this particular product).

Great News! We've improved our Automated Systems so that you can get product-specific Troubleshooting help more quickly. All you need to do is enter the product's **Part #** when prompted to do so. This will take you directly to all of our known issues and solutions for this title. The product's **Part #** is located in several places (on the CD label, Game Pak, package and/or plastic disc case, if applicable) and is usually identified by a number such as **04-12345**. When prompted by the Automated System, enter the **last five digits** of your product's Part #. (For example, Part # 04-12345 would require that you enter the "12345" portion of the number for that product.) **Note:** Some products simply feature a five-digit Part # without an "04-" prefix.

Live support is generally available Monday through Friday, 8:00 AM until 6:00 PM (Pacific Time). **Note:** We may be closed on major holidays.
