## Advanced Game controls

**BIG TIP:** Even though you score big points by stylin' near a defender, be careful—stylin' also increases your chances of fumbling during a big hit.

#### DEFENSIVE POWER MOVE

Need to force a turnover? Press the L1 button + the button when you have a clear path to the ball carrier. The more squarely and forcefully you hit him, the more likely he'll lose the ball.

Note: If you try a defensive power move and miss, you'll be way out of position to make a play.

## Take it to the streets

On the street, there are no helmets. There are no offensive specialists. There are only serious ballers, who play both sides of the ball.

### Main Menu

From the Main menu, jump right to the action, choose your gameplay options, access the features, and much more.

Pick the type of game you want to play

Adjust your gameplay options

Edit your created team, check out stats and high scores, view tutorials, and choose music from the Jukebox soundtrack

Check out the making of NFL STREET, view credits and previews

### Quick Game

Show your style and make some huge hits with nothing on the line but bragging rights. Select two teams and leave it all on the field.

#### TO PLAY A QUICK GAME:

- ▶ From the Play It menu, select QUICK GAME. The Select Controller screen appears.

**BIG TIP:** Each field has its own personality, which should alter your strategy when you play on it. For example, in the Pit, the muddy field makes juking and spinning risky, while the West Coast's sand makes it way harder to get up to speed. You also need to pay attention to field dimensions. On a narrow field, a power running game between the tackles is a good tactic; while on a wide field, speed-running and passing attacks might be the best strategies.

## Winning

It doesn't matter if you win or lose—it's how you play the game. Yeah, right. Winning is everything.

You win by either reaching the play-to score or by being the first player to hit a certain amount of Style Points. Use the Options menu to choose which type of game you want to play.

## User ID

Don't let all your accomplishments go to waste. Create a User ID and use it every time you play to keep track of your teams and players, rewards, and statistics.

**Note:** You must have a memory card (8 MB) (for PlayStation®2) to save a User ID.

## Options

There are a lot of options you can adjust before trying to own the streets. They're easy to figure out, but if you're not sure what an option means, highlight it and read the description on the bottom of the screen.

## On the Field

Think you've got game? Let's see about that.

### Game Screen

## Game Tips

On the playground, everybody plays both sides of the ball in this intense 7-on-7 showdown. That means your skinny quarterback might be a great passer, but he'll probably get run over on defense.

## Stylin'

In *NFL STREET*, stylin' is what separates the players from the Playaz. The more stylin' you do, the more you show off your game, but more importantly, the more Style Points you earn.

- Style Points are huge in *NFL STREET*. Get enough of them to fill your GameBreaker Meter (> p. 12) and you get a GameBreaker.
- In a Style Point Challenge, the first player to a certain number of points wins.

**Note:** In a Style Point Challenge, each offensive possession begins with the same field position to give you plenty of room to rack up those points.

## Other Game Modes

Play a pickup game full of NFL stars, or take on the league for a chance to unlock rewards for your team.

### Pickup Game

Pick teams from a pool of current NFL players and old-school legends like Walter Payton and Barry Sanders. A Pickup Game is similar to a Quick Game, so follow the instructions on p. 7 to get yourself on the field.

### NFL Challenge

It's time to take on the big boys. Go head to head against NFL teams to unlock rewards and develop your team into a playground powerhouse.

### Creating a Team

Before you start competing with the best, you need to build a team from the ground up.

- You can choose a preset roster type or build a customized team with Development Points (➤ p. 15).

#### TO CREATE A TEAM:

- ▶ Choose NFL CHALLENGE from the Play It menu. Create a User ID, and then choose the details of your team, players (➤ p. 15), and gear (➤ p. 16).

### CHALLENGE LOCATIONS SCREEN

Field name and location, and the name of the division

Edit your team's information and give your players life by developing their on-the-field attributes and choosing their gear.

The division's teams

### Development Points

The only way to make your players better is with Development Points.

They're used to increase your players' ten key attributes (➤ p. 16).

You earn Development Points by winning challenges (➤ p. 17), so get busy and use them wisely.

### Editing and Developing Players

Strategy comes into play when you edit and develop your players. Every Development Point spent on a certain attribute can go a long way in improving players' skills and winning you games.

#### TO EDIT/DEVELOP A PLAYER:

1. Pick PLAYER EDIT from the Team Editor screen.
2. Select the player you want to develop.
3. Choose his name, position, body height and weight, attributes (➤ p. 16), and more.
  - A player's height and weight are very critical to the way he performs on the field. If you want a tall receiver that can jump over a defender or a massive offensive lineman, it's gonna cost you some serious Development Points.
- ▶ Use the Signature Style category to pick the player's four go-to signature style moves. When you really want to rub it in, show your dominance with one of these preset moves (➤ *Advanced Controls* on p. 5).

## ATTRIBUTES

Pick your players' attributes wisely if you want to them to grow into playground legends. These are the ten player attributes and a description of what they affect:

<b>Passing</b>	The speed and accuracy of passes
<b>Speed</b>	How fast a player runs
<b>Blocking</b>	Run- and pass-blocking ability
<b>Agility</b>	Jumping ability and the speed of jukes and spins
<b>Catching</b>	Pass-and pitch-catching ability
<b>Run Power</b>	Ability to break tackles
<b>Carrying</b>	How often a player fumbles
<b>Tackling</b>	Tackling ability and the accuracy of pursuit angles
<b>Coverage</b>	Defensive coverage skills and reaction to the ball on passes, which leads to interceptions
<b>D-Moves</b>	Ability to get through, around, and by blockers

**BIG TIP:** Make sure players have the right skills for their positions. For example, quarterbacks need solid passing; wide receivers and defensive backs should have good speed, good agility, and coverage; and linemen need both blocking (for offense) and D-Moves (for defense). It also pays off to make all your players good tacklers since everyone plays defense.

## GEAR

Not only does what a player wears make him look good on the field, it can also boost his attributes. Use the Gear category to select your player's getup.

- You need to win challenges (> p. 17) to unlock Impact Gear like super-fast shoes that make your players quicker, or armored shoulder pads to increase tackling ability. Impact Gear is the only way to increase attributes beyond Level 20.

## NFL Division Ladders

Put your team to the test by matching up against seven of the best players each NFL team has to offer. When you beat all the teams in a divisional ladder, you earn 800 Challenge Tokens to use in NFL Challenge mode (> below), and you unlock another division and playing field. You win the championship by defeating every team in the NFL.

### TO BEGIN AN NFL CHALLENGE:

1. After selecting your team, players, and gear, pick the division you want to take on.
2. Choose to enter NFL Challenge mode (> below) or go for the gold now by defeating every team in the division in a game to 36.

## NFL Challenge Mode

Spend your Challenge Tokens and earn rewards for your team including Development Points, new plays, Impact Gear, and a chance to add NFL players to your squad.

The harder the challenge, the bigger the reward. You have to spend a lot of tokens to get the goods, but if you win, the payoff is worth it.

For example, you need to drop 760 tokens for a chance to add an NFL player to your team, whereas an Impact Gear challenge only costs you 80–200 tokens, and a shot at Development Points could require you to kick down anywhere from 20–160 tokens.

**Note:** If you lose a challenge, keep trying until you win. It doesn't cost you any more tokens.

## CHALLENGE SCREEN

**BIG TIP:** Here's your chance to strategize, dawg. You might want to add proven players to your squad by picking up an NFL player or two in addition to using Development Points to build your created players. One thing to remember is that you can't use Development Points to improve the NFL players.
