THE MAGIC OF CHRISTMAS

Every Christmas, as the holiday spirit sweeps across the world, a magical train sets out to gather a handful of lucky boys and girls. Together, they travel to the North Pole to visit Santa and receive the First Gift of Christmas.

This year, a young boy on the verge of disbelieving will embark on an adventure unlike any other. From snowball fights with a mischievous puppet to runaway rail cars to trips through mountains of presents, it's guaranteed to be a train ride no one will ever forget.

2. This shows you the full and partially assembled toys you've collected over the course of the game.

HINTS & TIPS

A few tips on adventuring on the Polar Express:

- If you can't step out of the way of a flying object, try ducking or jumping over it.
- Keep an eye out for coins. With 20 coins, you gain an extra chance to continue if your health runs out!
- Find the hidden toys to unlock bonus games.
- If you're trying to kick or throw an object (like a ball or a toy mouse), a transparent green arc will appear to show you where the object will land.
- At times, you'll need a sense of rhythm to get things done. Just watch the buttons that appear on the screen and repeat the sequence in time with the music.
- You can pull and push some objects by pressing the  button.
- When driving the runaway train car, avoid potholes and other vehicles by leaning your train car to the left or right with the analog stick. You can also brake by pressing the  button and speed up again by pressing the  button.
- The Tube System transports elves all over the North Pole. To get Hero Boy to his destination successfully, he must hit the colored sensors in the tube in the same order that appear on his screen. If Hero Boy hits the wrong sensor, another color will appear on the screen that he must hit in order to return his tube car to the right track.

SCROOGE'S BAG OF TRICKS

Poor Mr. Scrooge! Not content enough to ruin Christmas for himself, Scrooge has decided to ruin the children's trip on the Polar Express by stealing their train tickets.

Scrooge has manipulated some of the other puppets to get in your way as you search for the tickets! Look out especially for puppets who like to throw things.

These bouncing toys seem harmless but when they pop open, they give quite a scare!

Scrooge wants to spread misery at this joyous time of year, stealing tickets, throwing soccer balls, and even turning into a giant puppet.

BRIGHT & SHINING THINGS

Along the way, you'll meet a lot of new friends and pick up a few things to help make your journey to the North Pole a success.

Collecting 20 coins will award you with another Continue. This will allow you to retry your current objective after losing your health.

Each toy successfully collected unlocks a bonus game for you to play.

These rare items, if found, restore you back to full health.

It's a bag full of coins! Remember collecting 20 coins awards you with another continue.

Items like these help fix things such as the train car or Zeppelin.

Pick up items like this teddy bear and throw them at pesky puppets. Keep an eye out for snowballs to toss or soccer balls to kick, too!

EYETOY GAMES

With the magic of EyeToy, you enter the game using your body instead of a controller to direct the action. Before you begin playing, make sure that the EyeToy is properly installed by following the instructions provided with that accessory.

Decorating the Tree

Place decorations on the Christmas Tree! Wave your hand over the lighted doors. A few seconds later, a decoration will appear on the tree.

Mischievous marionettes will drop in from the top of the screen to take decorations off the tree. You can only stop them by swatting them with your hands as they come towards the tree. Decorate the entire tree and you've won the game!

Driving the Polar Express!

You have been given the awesome responsibility of driving the Polar Express. Get the train to the North Pole in the shortest time possible.

As you head down the track, wipe snow from the windshield so that you can keep an eye on the track. Every so often, train switches appear, telling you which intersection the train must take. Once you approach the intersection, press the correct button at the top of the screen to take the right track. Taking the wrong one will move the train through barricades that slow the train down and throw up a lot of snow on the windshield.

Watch out for snowmen who wander onto the track. Pull the whistle to alert them to get off the track, or else a whole pile of snow will end up on the windshield! The game is won once you pull into the North Pole station.

SAVING & LOADING

You can access a saved game from the main menu. At the end of each chapter, you are given the option to save the game in progress. To save your game, insert a memory card (8MB)(for PlayStation[®]2) into MEMORY CARD slot 1 of the console before starting play. You select from any of the save slots to load a saved game. You can play your saved games from the same memory card (8MB)(for PlayStation[®]2) or from any memory card (8MB)(for PlayStation[®]2) with previously saved The Polar Express games.
